

SEDONA CERTIFIED SUSTAINABLE

SEDONA CERTIFIED SUSTAINABLE BUSINESSES ARRANGED BY CATEGORY

The Sustainability Alliance has been certifying local businesses as sustainable throughout the Sedona Verde Valley region. The certification is a way to recognize and drive business toward companies that do the most for their employees, our community and the environment. There are three levels of certification:

- **Conservationist (BRONZE):** These organizations have reduced their negative impacts on the environment and improved the quality of life for employees and communities
- **Innovator (SILVER):** These organizations have become producers of sustainable resources, products and energy and are actively influencing customers, suppliers and peers
- **Sustainable (GOLD):** These organizations are fully sustainable, meeting globally accepted sustainability standards. They designed their business model around sustainable mission and share power and wealth with employees

Certifications are awarded by The Sustainability Alliance in Sedona Verde Valley.

To indicate our own commitment to being more sustainable, the Sedona Chamber of Commerce & Tourism Bureau has also been certified Conservationist - BRONZE by The Sustainability Alliance.

LODGING

A SUNSET CHATEAU
